THE OFFICIAL PROCLAMATION

The Shriners of Kentneky are preparing for a big time next month. There will be a large crowd from varions parts of the state go to Madisonville on November 8, where the work of the Temple will be conferred.

On November 27 at Louisville a very large class will be initiated. In it will probably be six or seven from Padneah, and quite a delegation will go up from here.

It is not known whether anyone from Paducah will go to Madisonville next week or not, as several who have been thinking of it have not decided. Louisville will send a large delegation there.

The official prociamation calling the special session declares that, "From every part of the Desert shall come the sons of the true faith, and ail cares shal, be left behind, and a adds: "Of this decree, fail not at your peril."

Other mjunctions to the Nobies are "Nobies are requested to have their fez with them. If you have none, buy siong."

"Nobles do not fail to have your visiting cards with you."

"Visiting Nobies are especially in vited to be present, but are reminded to have the passport for the year 1902 to be admitted."

"Don't forget your clothes-if you have any-fez, claws, a smile and a night key."

"The traditional banquet will be served at the hotel at 8 o'clock p.m "

"Lastly,remember the day and date, and make arrangements to shake your hasiness on Friday evening, November 7', 1962, at 6 o'olook."

Candidates are informed that "Parachutes will be furnished free to eandidates when 'shooting shoots' and that "Life preservers and hasking gloves cannot be used when holding on to the rope."

Imperial Potentate Noble Heury C. Akin has granted the Temple a dispensation to receive aed hallot on petitinns at Madisonville, and Nobles are nrged to bring in their petitions for action.

The committee in charge of the arrangements for the pilgrimage is composed of Nohle John II. Barrickman, chairman; Noble James II. ical filtration plact and gnaranice to the citizens of Padueah clear, bright, sparkling water free of suspended matter and 97 per cent pore under all conditions of the river. If they fail to do this then the above contract will be null and void. A careful investigation of all the details underlying this ordinance discloses the fect that the water company ts willing and expeets to contract, in care the ordi nonce is passed, with the New York Continental Jeweli Filtration Co., of New York and Chicago, who have constructed all the large and successfoi filter plants in the country, erd this company guarantees to the water company the quainty of water above described. That this company is amply able to fulfill this guarantee, there can be no question, as we need go no further from home than Caire, and Quiney, ili., to see simlisr plants to the one proposed here, operating on the Ohio and Mississippi rivers under substantially the same conditions as pertain here, and so soccessfully as to meet with the unqualified approval of not only the water companies, but the citizens of

those cities as well, luciuding their

heaith officers.

That the citizens of l'adneah desire pare, bright, elear water in their homes, both for sirinking and bathing purposes, there can be no question, end entside of the hygienic and sauitary advantages to be expected of this purification plant, it is an observed fact thas clear water redounds directly to the benefit of the city possessing it. This is so clearly to be seen that manufacturers intending to locate their enterprises examine the water supply and are governed in their action to a great extent by the character of the water. A long list could be subjoined of the fabrlo manufacturers to whom clear water is almost indis pensable. This substantial sanitary and commercial benefit of pure, clear water can be obtained without any question by the vote of the people on November 4, and while it involves a very considerable outlay on the part of the water company, they are willlng at this time to expend the money tf the citizens of Padnoah express their desire for clear, pure water by voting favorahly on November 4. We trust that no prejudice founded upon The law is all we have to go by, and misconception or misnaderstanding of if the eight man, newsdealer or soda the issue will prevent our oitizens from securing pure, clear water for our city, and that they will settle the matter hy voting for the ordinance on November 4, 1902.

Some misunderstanding exists in regard to the present hydrant contract. There are 313 hydrants or fire plugs. The contract for rental by the city of 150 of same expires in October 1906. Of the other 163 the contract for rental will not expire for 20 years from

Another question that should meet with moanimons approval is that of anthorizing a contract with the water company for twenty yeers for fire hydrants at \$25 each in order to secure filtered water. This is a reasonable rental, and will by ourraiting existing collection of 1900 and 1901 taxes on telephone associations raised a "fight contracts save the city over \$25,000, secured notes amounting to \$267; fund' of \$10,000 at the meeting yesand in addition enable the water company to put lu e filtration plant and year 1901 on \$775 note; Annie W. These two quostions are of such significance that every votor should go to The only contest was for the effice of the poils with the intention uppermost in his mind to vote on both propositions, for a vote not cast one way or the other is concted a vote against them. If the propositions carry it will mean a great deal towards the advancement of Paducah and in eddition to the permanent benefits to be derived, will mean over \$100,000 spent here for labor and material. Over \$30,000 of the cost of the filtration plant alone will be expended here for work and material, to say nothing of the money spent for rebuilding the
